Md. Junayed

Full-Stack Developer

junayedm2222@gmail.com | +8801575748133 | github.com/mjunayed2003 | linkedin.com/in/junayed2003

Skills

Languages: JavaScript, TypeScript, Node.js, Python, C, SQL

Frameworks & Libraries: ReactJS, Next.js, Express.js, NestJS, Tailwind CSS, Redux Toolkit, Prisma ORM, Socket.IO

Tools & Databases: AWS (EC2, S3, Lambda, DynamoDB), Firebase, PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch, Docker, Git, Linux

Work Experience

Full-Stack Developer — Sparktech Agency July 2025 – August 2026

- Implemented secure authentication and role-based access control (RBAC) using JWT and OAuth across **4 distinct user roles**, ensuring data security and controlled access across microservices.
- Built real-time notification and chat systems using Socket.io and WebSockets, supporting **2,000+ concurrent users** with message delivery latency **under 200ms**.
- Set up CI/CD pipelines with GitHub Actions/Jenkins integrated with Docker and Kubernetes, reducing deployment time by **70% (from 30 minutes to under 5 minutes)** and enabling **10+ zero-downtime releases per month**.
- Improved frontend performance and SEO using Next.js SSR/SSG, reducing page load time by **40% (from 3s to 1.2s)** and improving Core Web Vitals score from **65 to 92**.
- Integrated third-party payment gateways (Stripe, SSLCommerz, bKash), processing **1,000+ transactions per month** with a **99.9% success rate**.

Education

Uttara University Summer 2026 – Present
B.Sc. in Computer Science and Engineering

Institute of Engineering & Technology Mar 2021 – Nov 2025
Diploma in Engineering

Project Work

HireHubJA — Job Recruitment Platform GitHub

Developed a full-stack job recruitment platform with role-based authentication and authorization for Job Seekers, Employers, Companies, and Admins. Implemented job posting, application management, document verification, real-time chat, and notifications.

Technologies: TypeScript, Next.js, NestJS, PostgreSQL, Prisma ORM, Socket.IO, Firebase, JWT.

PremierDD — Construction Management System GitHub

Architected and developed a comprehensive, role-based construction management platform supporting **4 distinct user roles — Super Admin, Admin, Manager, and Worker** — each with tailored permissions and dashboards. Built end-to-end modules for company and project management, workforce and attendance tracking with geofencing, payroll processing, inventory control, expense reporting, and real-time team communication.

Technologies: TypeScript, NestJS, PostgreSQL, Prisma ORM, AWS S3, Stripe, Google Maps API, Geofencing, Socket.IO.

Jotter — Secure Cloud File Manager GitHub

Secure cloud-based MERN-stack file management system with file upload, folder organization, search, and Google OAuth-based authentication.

Technologies: Node.js, Express.js, MongoDB, Mongoose, JWT, Passport.js.

Certifications

- Full-Stack Web Development with Prisma ORM — Ostad
- MERN Stack Developer — Bdcalling Academy
